## Gain the competitive advantage

- Attract larger clients by expanding your product and service offerings without the complexity and cost associated with current architectures

- Expand your geographic coverage by leveraging the Internet

- Communicate effectively with multiple remote sites

- Improve client satisfaction

- Offer your clients the flexibility to add more functionality as they grow

- Offer them Y2K- and HIPAA-compliant technology

- Assess coverage instantly with managed care definitions, including expected payments, fee schedules, allowed procedures, and valid diagnoses per plan

- Improve efficiency and lower your costs with EDI capabilities

Total▸Med
the next level connection

TotalMed™ is the Internet-based strategy for practice management today

Go to the next level!

Become a TotalMed Partner

Expand your business

TotalMed is the integrated application suite that will change the way you and your clients do business. By becoming a TotalMed partner, you can

- increase your revenues
- protect and grow your client base
- expand your product and service offerings
- attract new clients
- increase customer satisfaction
- lower your cost of doing business
- support the complexity of today's billing requirements
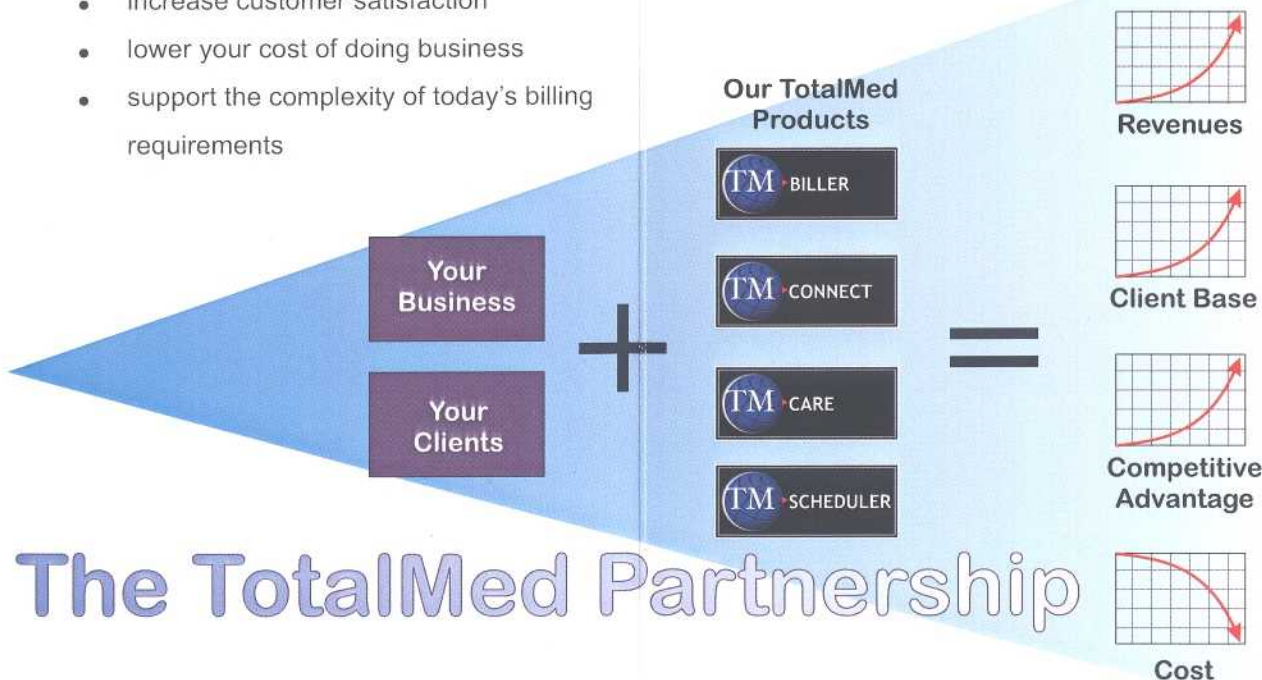

It's easy with TotalMed!

We'll show you how:

- Comprehensive training
- Configurable hosting options to suit your budget
- Modular products that can be tailored to your clients' needs

A better billing system

TotalMed is an integrated suite of applications that can provide an Internet-based solution for you and your clients. A centralized database enables you and your clients to exchange financial, medical, insurance and patient information. An intranet collaboration tool enables your organization, your clients, and your external healthcare partners to work together.

- **TMBiller** combines Y2K-compliant claims processing with a state-of-the-art tracking and reporting system to provide accurate electronic claim submission and optimize revenue.

- **TMConnect** provides a portal that makes claim information and up-to-date payment status accessible to your clients 24 hours a day over the Internet, while it helps everyone within your organization share information.

- **TMCare** assists clients in accurately recording diagnosis and procedure codes for automatic entry into TMBiller.

- **TMScheduler** helps clients gather complete and accurate patient demographic and insurance information as they schedule appointments.
